

# Please fold your box flat for return to your delivery site! We'll use them again!

1. With the box flipped upside down, apply pressure here! Fold back the end flap.

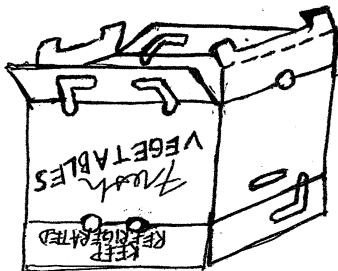

Do not pull up - it will rip the tabs. Do the same to the other end flap.

2. Slip the tabs on the flaps out of the slots, and lift.

3. Lift up the side flaps, too

4. Lay it flat, ready for storage and transport back to your pickup site!
